... In 1982 the Tause migrated east to the Dibri River ... but today still make frequent treks back to their ancestral lands in search of food. ...

- Munnings & Munnings 1990:2.

The Dibri River was the traditional territory of the smaller dialect group known as Devra. Approximately 13 years ago the majority of this group moved to the northeast coast of Irian Jaya. The spot they vacated has subsequently become the new home of the Tause.

- Munnings & Munnings 1990:3.

Following clan and family distinctions, the Tause traditionally lived in small hamlets or solitary dwellings, rather than villages.
